

# REGINA LINKE

## AUTHOR ILLUSTRATOR VISITS

I believe that children and young adults have an innate sensitivity for some of life's most complex topics: beauty, truth, joy, belonging, fairness, grief, loss, and so much more. Rather than shy away from complexity, I engage groups of 50 and under in 45-60 minute sessions, including question and answer, to explore our shared human experience through the lens of ancient East Asian philosophy.

### CHINESE ART

GRADES PRE-K TO 2

In addition to seeing and exploring examples of traditional Chinese painting, students will learn about the principle of harmony and have the chance to observe and handle different brushes, paper, and other tools used to create these works. We will close the session with a fun read aloud of *Big Enough*.

### NUTURING INSPIRATION

GRADES 6 AND UP

After reading select pages from *The Oxherd Boy* together, I share my own sources of inspiration for those messages and lead students in a discussion about what inspires us. We will workshop a theme and create conversations that convey our own inspirational messages.

### DEVELOPING INTUITION

GRADES 3 TO 5

After reading *Big Enough* together, students identify stages of the main character's journey from self-doubt to self-confidence. We will explore the purpose of rules and advice, and share situations and experiences where not following a rule or taking someone's advice is the right thing to do.

### 3 HARMONIOUS TEACHINGS

GRADES 9 AND UP

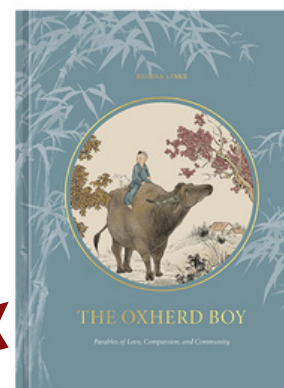

After reading select pages from *The Oxherd Boy* together, I share the basic principles of Taoism, Buddhism, and Confucianism, known as the Three Harmonious Teachings of classical Chinese scholarship. We will discuss how we can apply them to actual and hypothetical challenges in modern-day life.
